

PhAGR®- Phyto Attached Growth Reactor

NOVEMBER 3, 2018 ECOLOTREE OPEN HOUSE

What: A show and tell tour of Ecolotree's North Liberty Headquarters followed by a field trip to Mechanicsville for a PhAGR® demonstration.

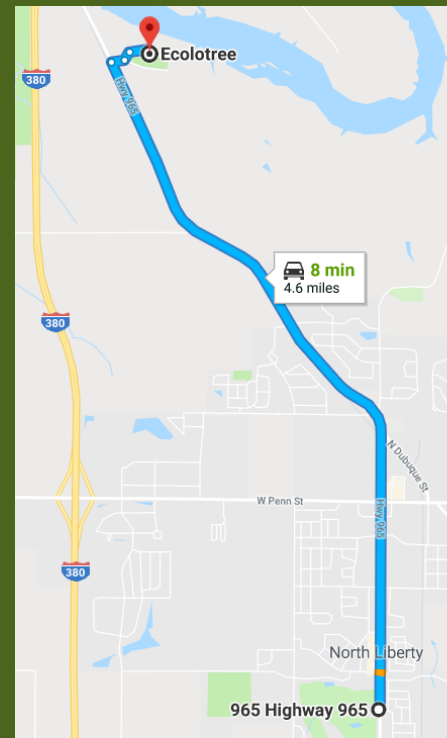

Purpose: Show operation of full-scale prototypes treating stormwater and small-town waste water. Early data shows phytoremediation efficacy for final tertiary water treatment required by IDNR.

Theme: "If you don't like your current plan, you need a better plan"-G. Savin, 2006

If interested, please attend.
